SUMMARY & GOALS

I am a passionate and engaged student with a strong interest in deepening my knowledge and skills in working life. With experience in sales, customer interactions as well as technical disciplines such as image and film photography, programming and database management, I am well equipped for new challenges.

My drive and motivation have led me to achieve outstanding results, including several awards and diplomas for my contributions to various projects, as well as finishing my high school education as the top student of my class.

I am a team player who continuously seeks opportunities to develop professionally, improve my skills and expand my knowledge through new experiences

WORK EXPERIENCE

2026:

Phone repairman/Salesman, Fix My Phone, Skövde

In this job I worked with sales, cross-selling, retail, phone repairs and customer service.

2025-Now:

Lead Programmer/Creative Director/Co-founder, Headstart, Skövde

Game development. Besides programming, my tasks included business development, marketing, game design and administrative tasks. Worked with agile methodologies.

2022-2024:

Strawberry sale/Property manager, Ängebäck Trädgård AB, Forshaga and Kil

Work outside stores and on a farm. Tasks included sales, maintenance of the storage on the farm, cleaning and gardening.

2022-2023

Registry Maintenance, Two i Sverige AB, Karlstad

2021-2022

Image and video photographer with drones, Two i Sverige AB, Karlstad & Gothenburg

Tasks included flying and taking pictures and recording with a drone at select locations in Karlstad and Gothenburg, as well as editing of clips and photos.

2021-2022

Video editing, Two i Sverige AB, Karlstad

My tasks were to cut and edit instruction videos that were going to be used for new employees.

2020-2021

CEO and Game Programmer, Low-Gravity Studios UF (Ung Företagsamhet/High School business), Karlstad

2019

Assistent at retirement home, Hammarö Kommun, Hammarö

My tasks were to help with food, arrange certain activities and act as company.

2017-2019

Advertising Distribution, Svensk Direktreklam, Hammarö

EDUCATION

Högskolan i Skövde, Skövde, Västra Götaland

- 2022-2025: Degree of Bachelor of Science with a major in Informatics, 180 credits. I studied the program Game Development - Programming, with courses like Game Programming 1, 2 and 3 where I explored and deepened my knowledge of important programming principles, among others.

Klara Gymnasiet/Karlstads Globala Gymnasium, Karlstad, Värmland

- 2019-2022: 3-year Technical high school with specialization in game design. I learned the basics of programming and game development in general, and also had the math courses Mathematics 1c, 2c, 3c, 4 and 5 for well versed math knowledge.
